Fidaa Alsaiedahmad
Software Engineer – Web & Automation

Motivated Software Engineer with a background in Computer Engineering. Focused on building clean, maintainable web applications using HTML, CSS, JavaScript, and .NET fundamentals. Strong interest in practical problem-solving, automation, and continuous learning.

Projects

Personal Portfolio Website
Designed and developed a responsive personal website to present projects, skills, and certificates. Implemented clean layout structure and maintainable styling using modern CSS.

To-Do App (Local Storage)
Built a JavaScript-based task manager supporting add, delete, and completion of tasks with persistence using localStorage.
